Head Start Family Outcomes: 2020-2021 School Year, Period 1-3

4 Key Practices to Support School Readiness

All Families n= 100

Using the 4 Family Life Practices allows an opportunity for parents to implement research based practices that supports family well-being and their child’s school readiness. The following identifies those practices and progress made by families over the school year. The rating scale (vertical axis) measure’s progress with 1 being the strategy is not implemented at all, 2 is implemented sometimes, 3 is most often implemented, and 4 is a strength or always implemented. The chart represents the results of all families.

As we know from analyzing child outcomes, the level of support a family needs is individualized. We are reinforcing with staff and families the importance of these practices and the use them in concert with information shared and obtained during parent/teacher conferences, home visits and during advocate/parent contacts. HSEOC emphasizes the positive effects a supportive home learning environment has on a child’s learning and school readiness.

What does the data tell us? Areas of Growth: • Consistent Daily Family Routines • Positive Discipline • Language & Experience Rich Environments Area of Opportunity: • Literacy & Daily Reading
